Bengaluru, India | +91 7022665338 | shabnam.rs.work@gmail.com | [Linkedin](#) | [Portfolio](#)

PROFILE

UX Designer, 3+ years, enterprise B2B applications and customer-facing platforms in Health InsurTech. Translates business requirements and complex processes into task flows, wireframes, and prototypes. UX designer for IHX Nucleus (22,000+ healthcare providers, 35+ payers/TPAs), owning UX end to end in an Agile, cross-functional environment: research, workflow observation, journey mapping, design specifications, and direct developer collaboration through implementation. Built and scaled a Figma design system and component library adopted platform-wide. HFI Certified Usability Architect (CUA), grounded in accessibility and WCAG standards, responsive design, and inclusive design. Comfortable managing multiple concurrent initiatives with guidance from product and UX leadership.

EXPERIENCE

IHX (a Perfios company)

Aug 2024 – Present | Bengaluru

UX Designer

- Led end-to-end user research and usability testing for IHX Nucleus, translating complex workflow observations into intuitive task flows for 22,000+ healthcare providers.
- Owned interaction and visual design for 7 AI product lines across the claims lifecycle, leveraging advanced prototyping tools to translate complex business requirements into intuitive task flows.
- Operations dashboard and task views redesign, cut average time to initiate settlement from 3.23 to 1.56 minutes, contributed to a 33% lift in per-claim monetization for one enterprise hospital contract.
- Long-tail in-product monetization pitch flow, including clickwrap legal-agreement UX and on-the-fly GST/PAN verification pathways, built with network and legal teams.
- Recon Hub, grown from the reconciliation module into a standalone module with automated bank reconciliation and audit trail, now covering 100% of cashless credit lines and recovering 25 to 30% of receivables previously handled manually.
- Self-serve User Management module with role hierarchy, SSO, and admin-level access control, built after interviewing CSM, account management, and network teams, cutting related tickets from ~80/day to ~10/day.
- Optimized design processes by establishing a rigorous design-to-development-to-QA workflow, reducing concept-to-prototype cycle time by 80% through direct developer collaboration.
- Delivered CXO-facing product demos and design rationales for Kenya and GCC markets, utilizing strong presentation skills to build consensus and drive roadmap validation.

IHX

Jul 2023 – Aug 2024 | Bengaluru

Associate UX Designer

- HMIS/HIS integration UX and pilot across 5+ hospitals, reduced manual data entry errors by roughly 80% and lowered average submission time from 8.0 to 6.8 minutes.
- Figma component library and design system, establishing reusable components and UX standards, reduced frontend development time from roughly 3+ weeks to 2 weeks per feature and improved developer handoff.
- 2FA authentication UX for the ISO 27001-certified IHX Nucleus platform, reached 80% of claim-active hospitals and cut reported delivery issues from ~5/day to 1 to 2/day.
- CSAT improvement, 4.1 to 4.6, through targeted UX changes, accessibility-conscious notification patterns, and enhanced error handling.
- Patient-facing mobile app, end-to-end UX including health record management aligned with ABDM/ABHA digital health network milestones.
- Hospital-facing mobile B2B app, built on a 3-week deadline, now at 9,500+ DAU, drove a 33% increase in client acquisition within 2 months through pre-sales use.

EDUCATION & CERTIFICATIONS

Vellore Institute of Technology

2013 to 2015

MSc Microbiology,

Core paper in Computer Programming. Elective coursework in Psychology and Cognitive Behavioural Genetics

JD Institute

2017

Diploma in Fashion Design

EDUCATION & CERTIFICATIONS

HFI Certified Usability Architect (CUA), Human Factors International	<i>Sep 2026</i>
coursework in accessibility and WCAG standards, usability heuristics, and research methods	
IHX Spotlight Award, IHX	<i>Feb 2026</i>
CEO recognition for multiple product improvements acknowledged during the IHX acquisition by Perfios for adoption and operational value	
IHX Hackathon, 1st Place, IHX	<i>Sep 2025</i>
ADPList / Superdribbs UX Challenge, Top 3	<i>Jul 2023</i>

SKILLS

General: End-to-end UX design, user research and usability testing, interaction design, information architecture, prototyping, accessibility and responsive design, WCAG-aware design, Complex workflow and task-flow design, translating business requirements into interfaces, design specifications for developer handoff, cross-functional Agile collaboration, Component design, token architecture, state and variant coverage, design-dev collaboration, Qualitative research, usability testing, persona creation, behavioral analysis, hypothesis-driven iteration, Claude Code, Lovable, VS Code, Cursor for React prototyping, Gemini API, AI eval framework design, MCP integration, Figma, Framer, Maze, Hotjar, Balsamiq, Google Analytics, Jira, Notion, Miro, HTML/CSS (basic)

UX Design: End-to-end UX design, user research and usability testing, interaction design, information architecture, prototyping, accessibility and responsive design, WCAG-aware design

Enterprise & Workflow Design: Complex workflow and task-flow design, translating business requirements into interfaces, design specifications for developer handoff, cross-functional Agile collaboration

Design Systems: Component design, token architecture, state and variant coverage, design-dev collaboration

Research & Data: Qualitative research, usability testing, persona creation, behavioral analysis, hypothesis-driven iteration

AI Practice: Claude Code, Lovable, VS Code, Cursor for React prototyping, Gemini API, AI eval framework design, MCP integration

Tools: Figma, Framer, Maze, Hotjar, Balsamiq, Google Analytics, Jira, Notion, Miro, HTML/CSS (basic)

PROJECTS

- Conversational AI Agent for Claim Submission**
- Agentic claim-submission experience, proposing a reduction in pre-auth submission time from 7 minutes to under 2 minutes by eliminating manual form filling.
- WiseWoman**
- Cycle-aware AI daily planner, built end to end: product strategy, UX, AI integration, and an evaluation framework for AI outputs.

SKILLS

English (fluent), Hindi (fluent), Malayalam (native)
